Maritime Experience

2500 - 3000
Ships Serviced at Major Ports

1000+
vessels under
Full Safety Contract

200+
Class Approved
Dive Stations

EPSCO was established in 1995 by its founder and Chairman, Mr. Andreas Ioannou.

The EPSCO headquarters is located in the maritime centre of Limassol, Cyprus with strategically positioned offices worldwide.

All our personnel are experienced in marine supplies, safety and services. Our knowledge and experience in our field has kept us at the forefront of customer service for over 25 years.

EPSCO is responsible for over 1,000 vessel services annually, for more than 130 Owners worldwide.

Our commitment to quality of service has ensured our established long-term relationships with approved safety service stations all over the world. Consequently, we can provide our clients with the service and peace of mind they have come to expect from EPSCO.

Our cultural mindset matters when building and sustaining our long-standing business relations with our clients and associates worldwide.

EPSCO worldwide is a multicultural and diverse team, which supports the Company's mission, strategy and ethical practices.

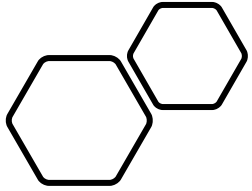

SAFETY & LIFESAVING SERVICES

We provide services at all major hubs and often at short notice and, also have a network which can accommodate even at the most remote locations.

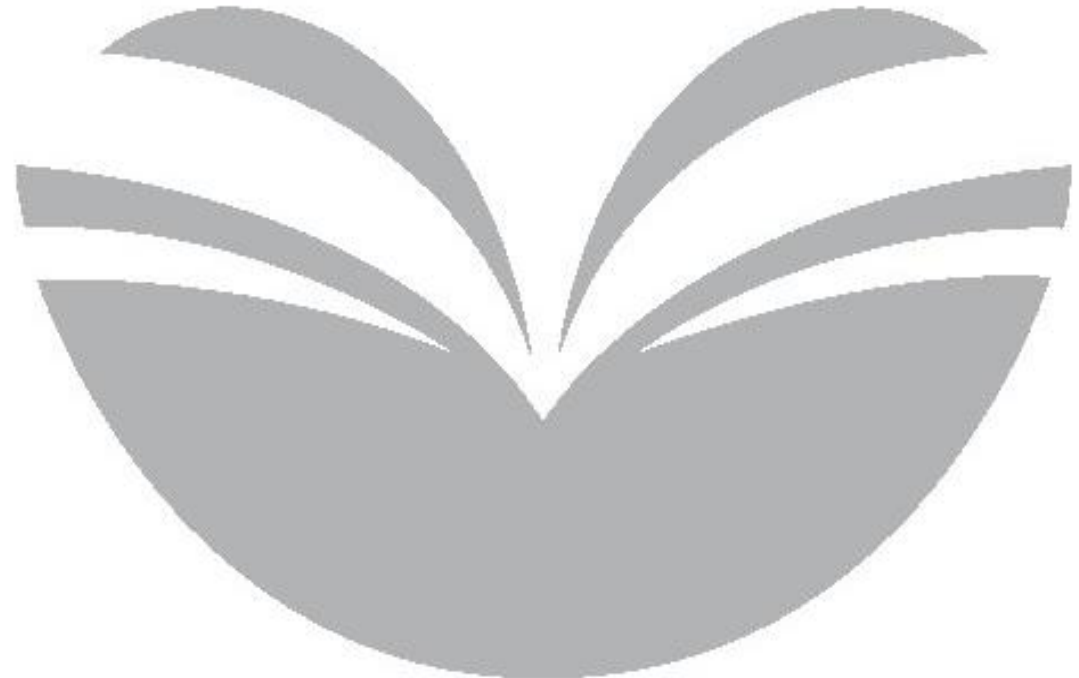

Our global network which is in excess of 300 Class and Maker approved service stations ensures we cover all safety and lifesaving equipment options.

FLEET SAFETY CONTRACTS

If you want peace of mind, ensure budget control, alleviate price surprises, then take advantage of our fixed cost global agreement. Our annual and bi-annual safety surveys are conducted by highly trained technicians located at our worldwide service stations.

ONLINE E-CERTIFICATES – SCMP

(Ship Certificate Management Programme)

Added value to our safety services is our dedicated online “E-Certificate” facility. This gives reassurance to crew onboard and teams ashore with quick, reliable, tracking and traceability of your ship’s certificates and service records.

We provide advance notice with our traffic light system for your ship’s safety service planning purposes with the click of a button.

LIFEBOAT, DAVIT AND CRANES

Regulatory and compliant services under SOLAS Reg. III/20-I and IMO MSC.402(96). Makers testing and/or Flag and Class approved service providers is undertaken as part of our service for your Annuals and 5-yearly inspection. Our coverage is throughout our worldwide network of service stations.

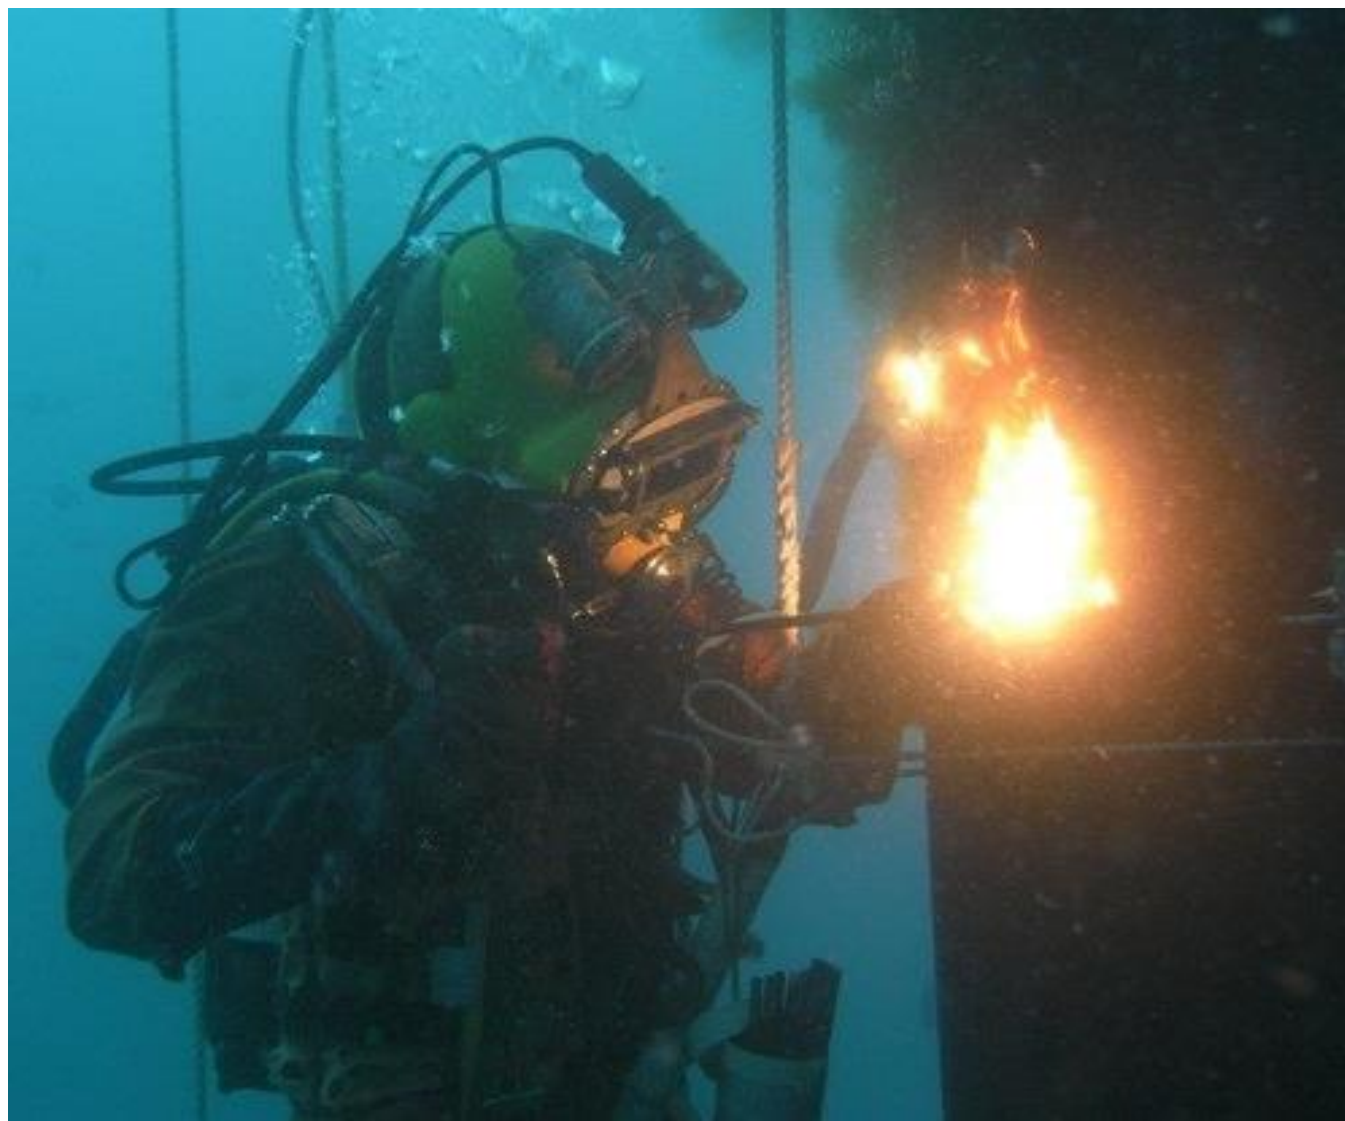

PERSONAL PROTECTIVE EQUIPMENT (PPE)

We provide the best high quality at economically targeted cost for all standard marine personal protective equipment.

- Helmets
- Safety Shoes / Boots
- Boiler Suits
- Gloves
- Goggles / Protective Glasses
- Ear Defenders etc

Additionally, we also provide specialised chemical and gas PPE.

DIVING

EPSCO offers a full range of Class approved, cost effective subsea diving services.

Our experienced teams utilise innovative technology and consistently proven methods to ensure diving operation projects are delivered efficiently, effectively and safely.

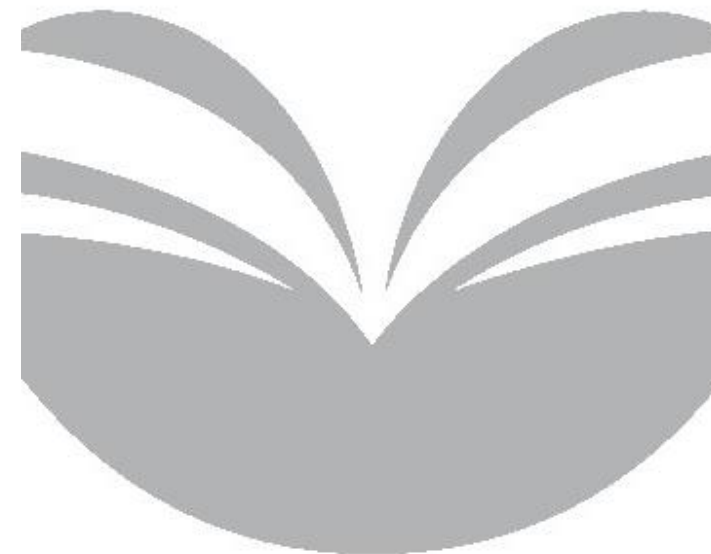

Our services include:

- In-water surveys
- Inspections
- Propeller polishing
- Hull fouling cleaning
- Welding and repairs
- Replacement of anodes

A customised 'fixed fee' underwater contracting service option is available for the discerning shipowner and ship manager.

Management of these services and their reports are also facilitated within our online e-tracking SCMP system.

SHIPYARDS & REPAIR FACILITIES

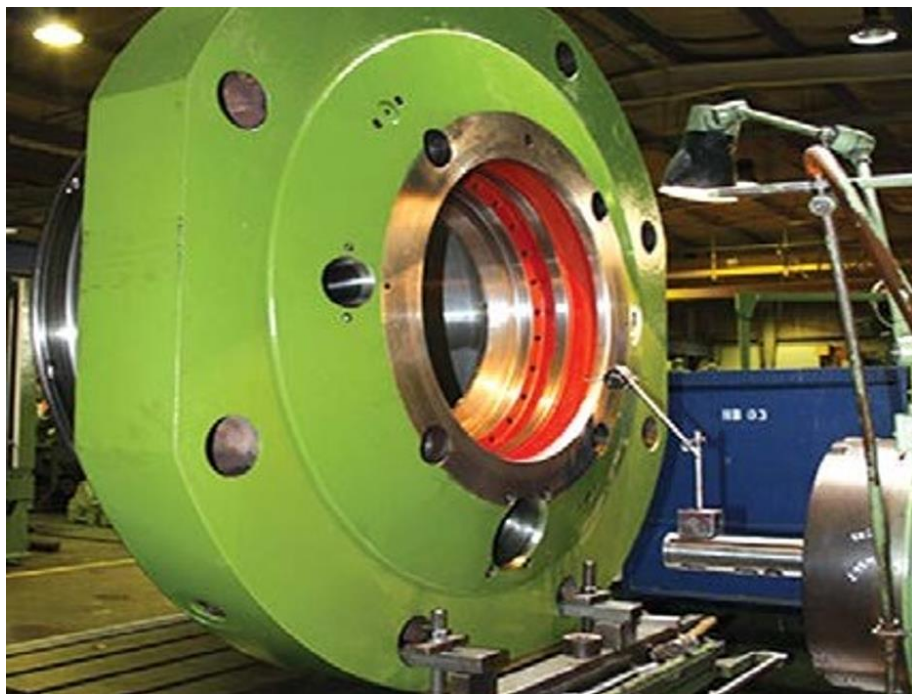

We have partnered with major ship repair facilities at strategically located ports covering significant trade routes so as to minimize deviation for scheduled / unscheduled repairs.

SPARE PARTS & RECONDITIONING OF CRITICAL EQUIPMENT

A “One-Stop” marine and offshore spare parts provider proudly partnered on a global basis with highly reputable specialists in their field. We have a worldwide supply network which can deliver with confidence from USA, Europe and Far East.

Need a piston bringing back to its original condition? Cylinder cover, exhaust valve spindles, seats and cages, piston rods, grinding, honing, in-situ machining? These are a few of the additional reconditioning or services that we offer. Our partner is a global player and market leader in surface engineering and has vast experience in servicing and reconditioning of industrial and marine engine components.

BRIDGE EQUIPMENT

We provide Class approved inspections and economically viable services/repairs for all marine navigation and communications equipment including but not limited to:

- ECDIS
- SART
- EPIRB
- RADAR
- SATNAV
- VDR
- GYRO
- COMPASS ADJUSTMENT

GAS DETECTION – CALIBRATION & NEW SUPPLY

- Gas monitoring equipment – portable & fixed oxygen
- Gas analyzers etc.
- Calibration gases and kits for portable gas monitors
- Pressure and temperature gauges and calibrators
- Temperature monitors
- Dräger & Kitagawa pumps and tubes

CORPORATE SOCIAL RESPONSIBILITY

We encourage and participate in various corporate social responsibility programmes.

EPSCO takes pride in ensuring employees feel they work for a Company creating a positive and productive environment.

We are committed to protecting our reputation which is built on a strong foundation of honesty and transparency.
