Global Strategic Alliance

Limassol — 28.06.2019 **—** Today at the headquarters of EPSCO Group in Limassol Cyprus, a new relationship was formed. Proud to announce EPSCO as the official exclusive representative of SRS (Structural Rig Surveys) on a global basis.

Yvonne Tsanos (AFNI), Group Director of EPSCO and Jai Milton, Director of SRS concluded the signing of the agreement for the benefit of both companies in the presence of EPSCO's Chairman, Andreas Ioannou and Co-Group Director, David Wilson.

"*It was great to offer this representation to EPSCO in light of their already globally strategic alliances!" said Jai Milton, Director, SRS Structural Rig Surveys.*

SRS was founded by its Managing Director having over 25 years combined experienced in the industrial rope access (IRATA) and commercial diving industries; working in both Offshore, Onshore and Maritime capacities. SRS affords best possible service to its clients whatever and wherever their requirements demand. A global service in all aspects of Rope Access, Non-Destructive Testing (NDT), Fabric Maintenance, Project Management to the Oil and Gas, Renewable Energy and Maritime sectors with highly skilled and motivated personnel. SRS is a fully approved ISO 9001:2008 and ISO 14001:2004 DNV/UKAS accredited Company, and proud to have achieved supplier approval from ABS and DNV to 402a and 402b standards as well as being full members of IRATA (Industrial Rope Access Trade Association).

With main objectives to provide and maintain professional standards throughout all scopes of their activities, close relationships with existing and potential new clients going beyond their demands and ensure 100% positive feedback. Within the SRS umbrella, Helipad Inspections onboard Oil Rigs, Commercial Shipping, Tankers, Pipelay vessels, DSV's Cruise Ships, Ferries, Hotels, Hospitals, Private Residences, Heliports etc. utilising the Helideck Micro Griptester also include :-

- Friction Testing in full compliance with CAP 437 and other highly acknowledged criteria.
- Sub-Structure NDT Inspections
- Perimeter safety lighting inspection and replacement
- Coating Removal and Application
- Sub-Structure coating repairs

Sub-Structure fabric maintenance

Founded in 1995, the EPSCO offers a wide range of products and services from its three locations in Europe and Far East with worldwide official representation to service the maritime industry ensuring clients' compliance with IMO Ship Safety Equipment and SOLAS demands as its core business area contributing to hazard free exposure of contemporary seafaring life. Servicing approx. **2500-3000** vessels annually virtually at any worldwide port Over two decades of continuous dynamic and versatile growth the Company has diversified into other areas within the maritime industry to accommodate their valuable long standing clients demands on a 24/7/365 basis emphasising on safety, security and operation in:-

- Cyber Security Consultation & Management
- Ballast Water Management Systems
- Spare Parts and Critical Equipment and Machinery Reconditioning
- Ship Repairs and Drydockings
- Approved Marine CCTV design and supply and monitoring systems
- Personal Protective Equipment (PPE)
- Onshore and Offshore
