Mitigating Risk, Maximizing Safety

EPSCO is a global leader in marine safety services and supplies, dedicated to ensuring safety at sea. With over 30 years of expertise, we provide comprehensive solutions, including FFE inspections, LSA, gas detection, and the supply of all safety-related equipment. Whether through our trusted local partners or our own strategically located service station in Rotterdam, we deliver reliable, tailored solutions to meet the unique needs of every vessel.

Our services span ports worldwide, supported by a network of approved partners, and extend beyond safety to include diving inspections, hull cleaning, propeller polishing, and sourcing technical, deck, and engine spares

Since pioneering fleet safety agreements in 2007, EPSCO has built long-term partnerships with prominent shipowners and management companies. Today, we service approximately 4,000 vessels annually, including 1,000 under dedicated fleet agreements for more than 130 owners worldwide.

Mitigating Risk, Maximizing Safety

Headquartered in Cyprus, with offices in Germany and Singapore, and our own service station in Rotterdam, as well as sales teams in Rotterdam and Greece, our experienced teams ensure vessels operate safely and efficiently across the globe. Our personnel combine technical knowledge with a customer-focused approach, reflecting our commitment to service excellence.

EPSCO's dedication to quality has established enduring relationships with approved safety service stations worldwide, giving our clients the dependable service and peace of mind they expect. Supported by a multicultural and diverse team, we uphold ethical practices and a collaborative mindset that strengthen long-term relationships with clients and partners worldwide.

Mission

Our mission is to continuously improve service quality while providing cost-effective ship supplies and services to the marine industry. We are committed to excellence, efficiency, and reliability, ensuring that every solution we deliver supports the safety, compliance, and operational success of our clients.

Vision

Our vision is to lead the future of maritime safety through integrity, innovation, and sustainability, delivering high-quality safety solutions worldwide while protecting lives at sea and preserving our oceans for future generations.

Values

- Safety First – Protecting lives, vessels and assets at sea
- Integrity – Acting with honesty and responsibility
- Reliability – Delivering trusted and timely services
- Service Excellence – Upholding the high industry standards
- Environmental Responsibility – Promoting eco-friendly practices

Your Safety, Our Priority

..... Safety & Lifesaving Services

We operate across all major maritime hubs, often accommodating requests at short notice. A key strength of our organization is our ability to deliver reliable services in remote and hard-to-reach locations, supported by our extensive global network, which enables us to respond effectively wherever our clients operate.

With over 350 Class and Maker-approved service stations worldwide, we ensure comprehensive coverage for all safety and life-saving equipment requirements.

Lifesaving Services & Supplies

- Life Rafts – Servicing and sales of new & used life rafts
- Fire Fighting Suits / Chemical & Gas Tight Suits / Immersion Suits
- Life Jackets
- Safety Clothing and Harnesses
- All Breathing Apparatus / EEBD's / Spare Cylinders / BA Compressor
- Inspection and Air Quality Testing
- Medical Oxygen Resuscitators & Cylinders

Fire Services & Supplies

With our extensive network we can carry out servicing of all fire safety equipment onboard / shore side in all ports.

All Epsco fire servicing is carried out by Class approved / authorized service technicians.

- CO2 / Dry Powder Systems / Foam Fixed Fire-Fighting Installations / Water Mist Systems / Hyper mist fixed Installations
- All Portable / Semi-Portable Fire Extinguishers (CO2 / Dry Powder / Foam / Water / etc.)
- Smoke / Heat Detection Systems
- Hydro-Testing & Refilling of All Pressurized Cylinders

Lifeboats, Davits and Cranes

Regulatory and compliant services under SOLAS Reg. III/20-II and IMO MSC.402(96). Makers testing and/or Flag and Class approved service providers is undertaken as part of our service for your Annuals and 5-yearly inspection. Our coverage is throughout our worldwide network of service stations.

Fleet Safety Contracts

For complete assurance, budget control, and protection against unexpected costs, take advantage of our fixed-cost global agreement. Our annual and bi-annual safety surveys are conducted by highly skilled technicians through our certified service stations worldwide, ensuring compliance, reliability, and operational efficiency.

Diving

EPSCO offers a full range of Class approved, cost effective subsea diving services.

Our experienced teams utilise innovative technology and consistently proven methods to ensure diving operation projects are delivered efficiently, effectively and safely.

Our services include:

In-water surveys | Inspections | Propeller Polishing | Hull Fouling Cleaning | Welding and Repairs | Replacement of Anodes

A customised 'fixed fee' underwater contracting service option is available for the discerning shipowner and ship manager.

Management of these services and their reports are also facilitated within our online SCMP database system.

Bridge Equipment

We provide Class approved inspections and economically viable services/repairs for all marine navigation and communications equipment including but not limited to:

ECDIS | SART | EPIRB | RADAR | SATNAV |
VDR | GYRO | COMPASS ADJUSTMENT

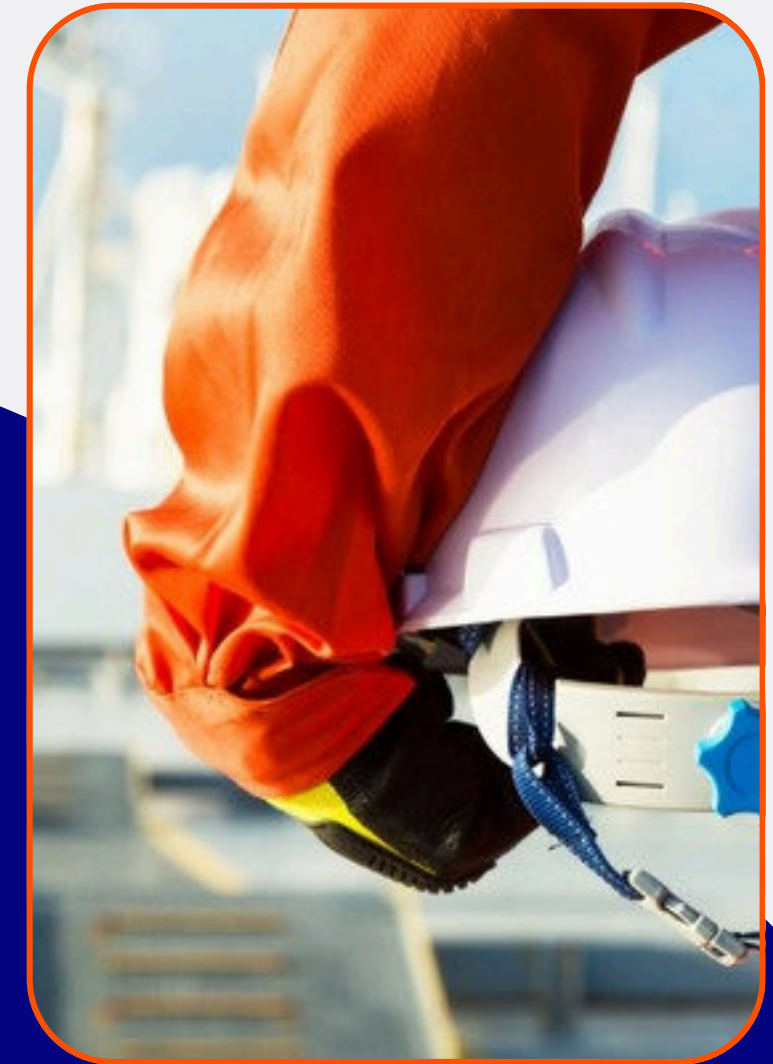

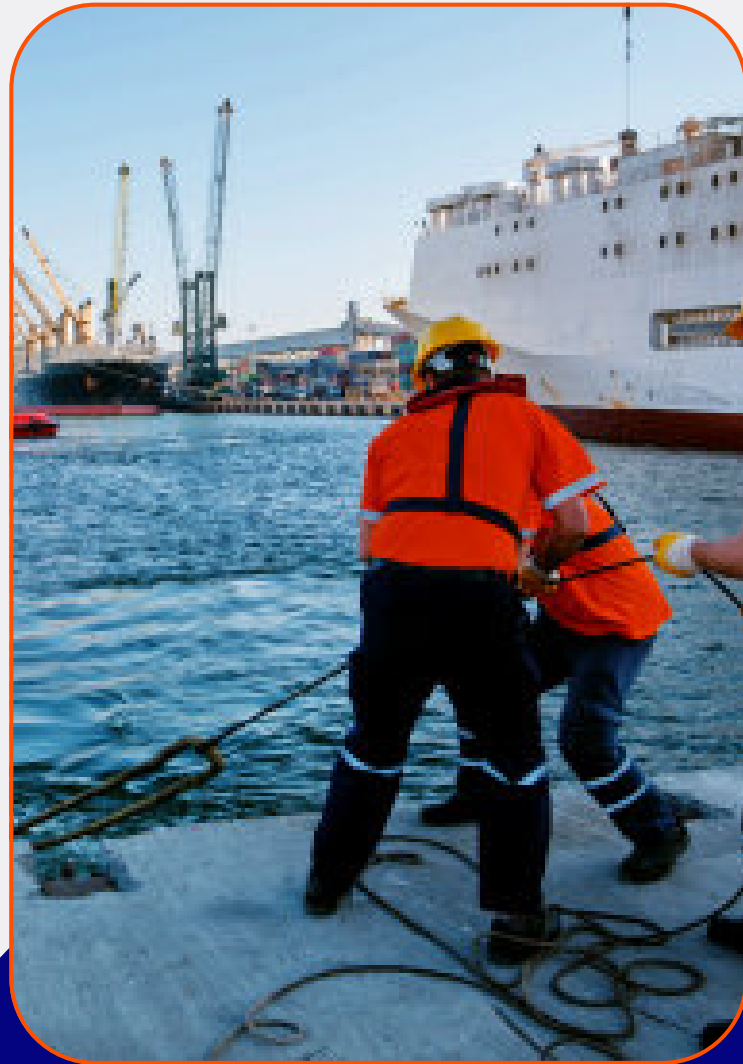

Gas Detection - Calibration & New Supply

- Gas monitoring equipment – portable & fixed
- Gas analyzers etc.
- Calibration gases and kits for portable gas monitors
- Pressure and temperature gauge calibration
- Temperature monitors
- Dräger & Kitagawa pumps and tubes

Personal Protective Equipment (PPE)

We provide the best high quality at economically targeted costs for all standard marine personal protective equipment

Immersion Suits | Chemical & Gas-tight Suits | Fireman Outfits | Helmets | Safety Shoes / Boots |
Boiler Suits | Gloves | Goggles / Protective Glasses | Ear Defenders | etc.

Online Certificate Database SCMP (Ship Certificate Management Programme)

Added value to our safety services is our dedicated online Certificate facility. This gives reassurance to crew onboard and teams ashore with quick, reliable, tracking and traceability of your ship's certificates and service records.

We provide advance notice with our traffic light system for your ship's safety service planning purposes with the click of a button.

Red Service Due / Overdue

Yellow Service Coming Due

Green Services Valid

Ultrasonic Antifouling

A comprehensive range of anti-fouling solutions that are easy to install and maintain.

Ideal for any solid surface which is exposed to raw seawater (from hulls, shafts, propellers, waterjets, sea-chest, tanks, keep-coolers, box-coolers, pipework and valves)

 Environmentally Friendly

 Less Downtime

 Lower Fuel Consumption

 Easy Installation

 Lower Power Consumption

 Easy System Integration

 Lower Operating Costs

 Microbial Control

 No Disturbance

Green Cleaning Solutions

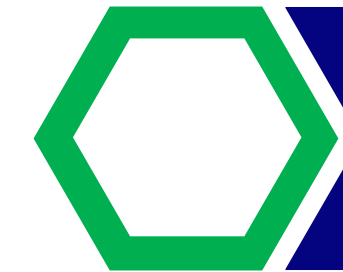

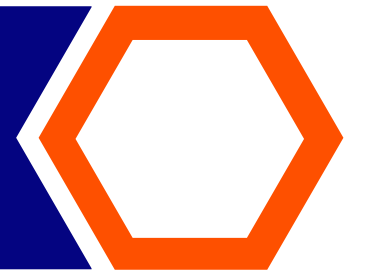

A semi-autonomous hull cleaning system designed to maintain a vessel's hull clean.

Operated by seafarers without the need of training nor supervision. The solution is portable and ready to be used without modifications to a vessel.

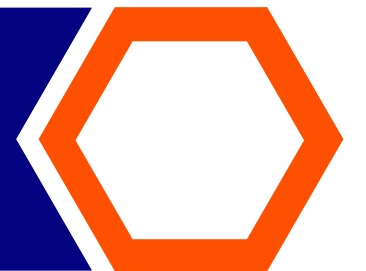

Low CapEx investment to comply with IMO's CII

No scheduling nor complex logistics required

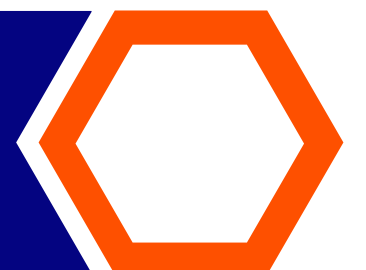

Clean proactively and save fuel

OPEX well below 250USD per cleaning

Avoid off-hire deviations to approved ports for cleaning

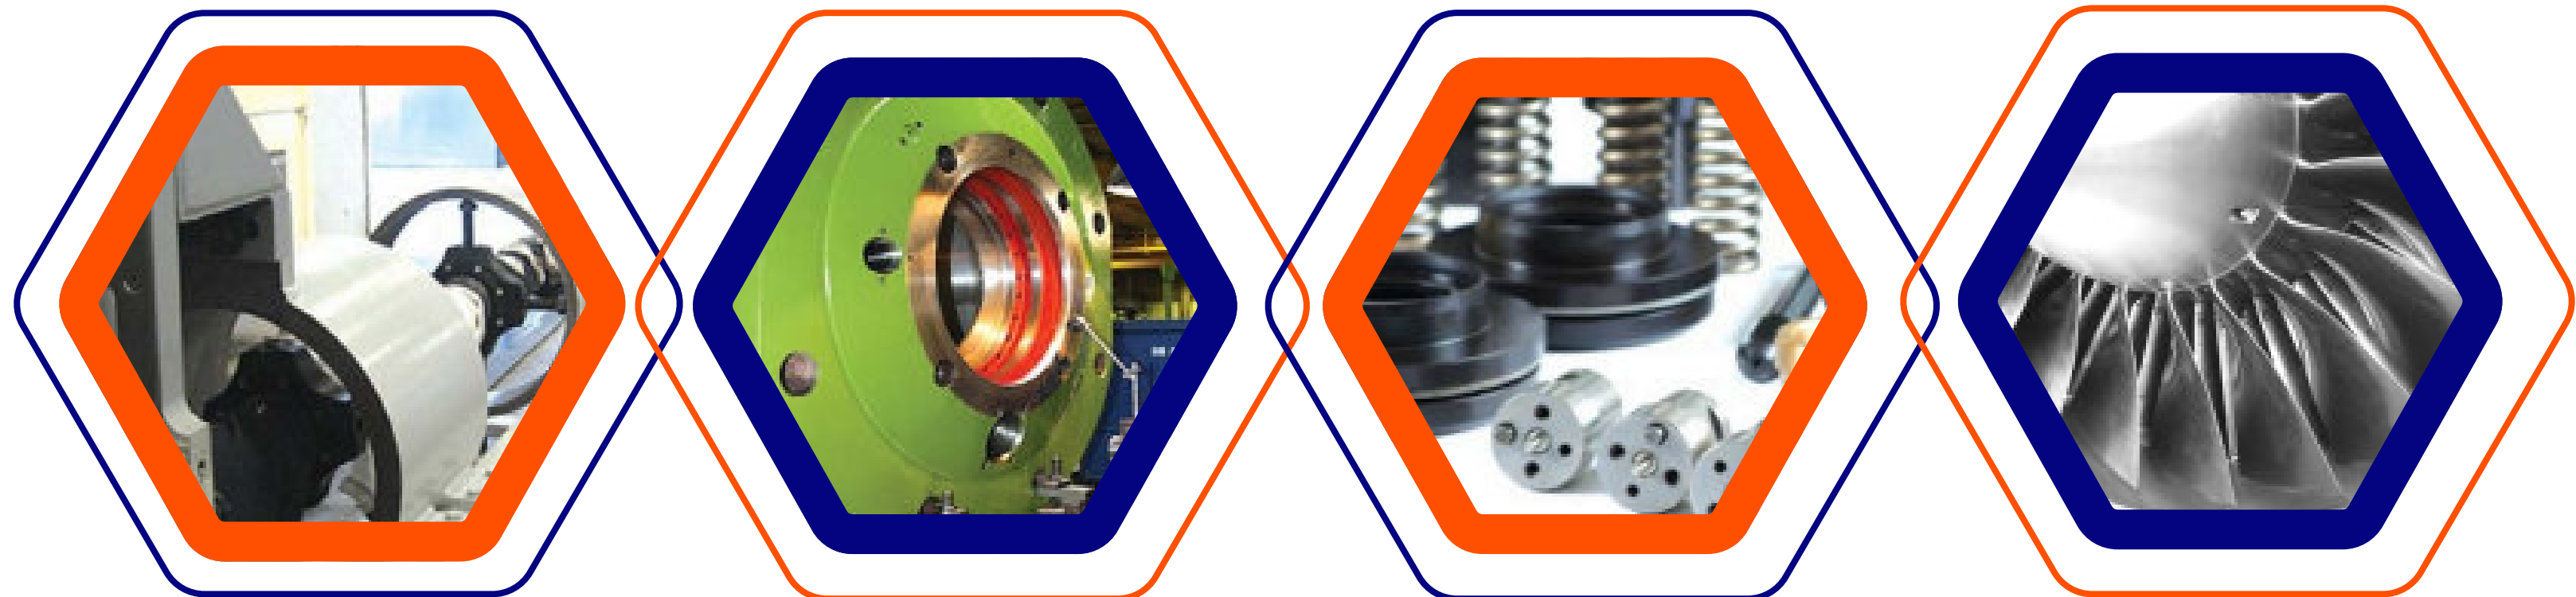

Inspection of the hull with onboard video camera

Spare Parts & Reconditioning of Critical Equipment

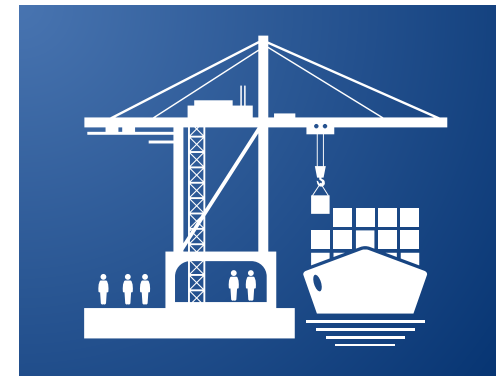

A "One-Stop" marine and offshore spare parts provider proudly partnered on a global basis with highly reputable specialists in their field. We have a worldwide supply network which can deliver with confidence from USA, Europe and Far East.

Need a piston bringing back to its original condition? Cylinder cover, exhaust valve spindles, seats and cages, piston rods, grinding, honing, in-situ machining? These are a few of the additional reconditioning or services that we offer. Our partner is a global player and market leader in surface engineering and has vast experience in servicing and reconditioning of industrial and marine engine components.

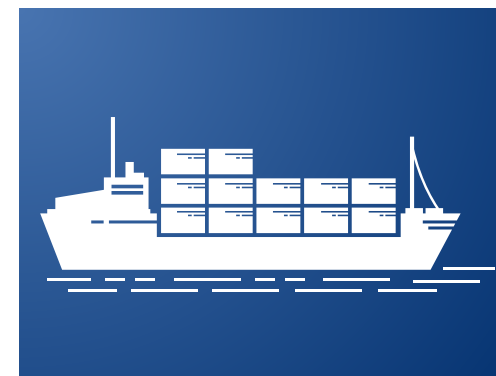

Shipyard & Repair Facilities

We have partnered with major ship repair facilities at strategically located ports covering significant trade routes so as to minimize deviation for scheduled / unscheduled repairs.

Service Station

Meis Marine Services B.V. is our dedicated service station for the maintenance, advisory, and supply of fire extinguishing and lifesaving appliances.

A team of highly skilled professionals ensures the highest safety standards are met. With a comprehensive range of services, clear communication, and extensive industry knowledge, reliable support is provided whenever and wherever needed.
