

# WORLDWIDE DIVING SERVICES

Epsco Group have over 20 years experience in the field of Underwater services, with a wide network of over 200 Class Approved Stations around the world.

Our vast experience and knowledge ensures that your Underwater Service needs and requirements are met with serious solutions.

## INSPECTIONS AND SURVEYS

Class approved divers perform hull inspections and surveys in lieu of Class Intermediate Survey requirement with CCTV and DVD footage. Inspections to ascertain the condition of the vessels hull, rudders and bearing etc, damage assessment, hull coating inspections, cathodic protection, pre-purchase, pre/post charter survey etc.

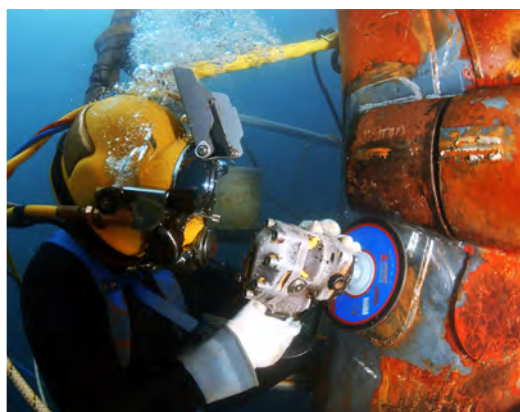

## HULL CLEANING

Our dive stations use only professional cleaning equipment globally. They offer before and after photographic evidence, helping you optimize speed and performance of your vessel. This is of course also subject to local restrictions.

## UNDERWATER REPAIRS

Underwater Welding, Blanking, anodes etc.

## PROPELLER POLISHING AND REPAIRS
